

REQUEST FOR PROPOSAL

DESAFÍA SWITZERLAND

ICEX SPAIN TRADE AND INVESTMENT, E.P.E. (“ICEX”), in collaboration with the Economic and Commercial Office of the Embassy of Spain in Bern (“OFECOMES Bern”), is issuing this Request for Proposal to seek proposals from operators with proven previous track records managing landing pad programs.

DESAFÍA SWITZERLAND

DESAFIA is a public initiative to help Spanish technology companies scale faster and globally. It is sponsored by ICEX (the Government of Spain’s agency for the internationalization of businesses) and Red.es (the Government of Spain’s agency responsible for executing and deploying Spain’s Digital Agenda). This particular invitation to tender is published pursuant to the Agreement for the Management of DESAFIA SWITZERLAND Initiative, signed between ICEX and Red.es on 19 of April of 2024

The Spanish participating startups in the DESAFIASWITZERLAND program must have a product or service of high technological value, a sustainable business model and ideally, previous international experience; the program is not for early-stage entrepreneurs. DESAFIA SWITZERLAND aims to introduce the participants to the Swiss technological and innovative sustainability ecosystem, so that they can benefit from lessons and networks, particularly from Swiss top entrepreneurs, open innovation leaders and impact investment funds, that allow them to grow as successful entrepreneurs, and to help them to make global connections linked to sustainability sectors and technologies such as: health & wellbeing, cleantech, finance & insurance, food & retail and smart cities, apart from other sectors in which sustainability has become the key transversal element in Switzerland, to be proposed by the bidders to this *request for proposal* (RFP).

DESAFIA SWITZERLAND focuses on the challenges that Spanish companies focused on providing sustainability solutions encounter to grow and become global. Spanish startups taking part in DESAFIA SWITZERLAND should have a product or service related to sustainability that offers a comprehensive and innovative solution to a specific and multi-sector challenge.

DESAFIA SWITZERLAND also deals with open innovation in sustainability: Participation of the Spanish companies in collaborative spaces for companies, entrepreneurs, and research organizations working on the creation and development of open innovation programs to address sustainability challenges.

At least once a year in 2024 ICEX/Red.es will launch a public call to select and invite a cohort of Spanish startups to participate in the immersion program. C-Level officers and founders will participate in workshops, meetings and activities that not only inspire them but help them assess the strategic position of the company, plot improvements to ramp-up growth, define a roadmap based on strategic and tactical considerations and start working on it.

OFECOMES Bern, on behalf of ICEX, requests proposals for the provision of the service for the management of DESAFIA SWITZERLAND on sustainability & open innovation.

SCOPE OF WORKS

The scope of the contract will be as follows:

1. Information and advisory services.

The selection of participants will be conducted by ICEX and Red.es. The contract awardee will be expected to provide support throughout the selection process, which includes proposing evaluation criteria, analysing and prioritizing applications, conducting calls and interviews to assist candidates and lead them to complete their submissions and coordinating interviews with the shortlisted companies, among other related tasks.

The awardee is expected to collaborate with ICEX/Red.es in attracting suitable candidates to DESAFIA SWITZERLAND, therefore knowledge and a professional network within the Spanish/Swiss start-up ecosystem would be appreciated.

The awardee will manage enquiries from stakeholders about DESAFIA SWITZERLAND coming from public entities, media, potential applicants, etc.

Project Managers will be required to travel to Spain at least once a year during the term of the main contract. Travel to Spain will be compulsory, prior to the start of the cohort and the occasion or not of a relevant ecosystem event, and networking sessions with potential participants.

No extra funds will be provided for these trips.

2. DESAFÍA Immersion programme

Aimed at founders and C-level executives of Spanish companies with the greatest potential to successfully tackle the global market and transform their companies after the experience. Participants will be selected by ICEX; support from the awardee is requested during the selection process, including proposal of evaluation criteria, prioritising of applications and explanation of scores.

The awardee must organize one immersion program – cohort - before the end of 2024 with at least ten participants per program, expecting 12 participants. Previous immersion programmes in other cities have received especially good remarks by alumni and we believe that two weeks with mid-day workshops (so that founders can still manage their companies and have time for business meetings) is reasonable. In any case, bidders can suggest otherwise within the two-week time frame. The immersion programmes will include group meetings with key agents of the Swiss ecosystem (mentors, investors, entrepreneurs, advisors, etc.), with a special focus on the main innovation spots in Zurich, Basel, Geneva, and Lausanne. Other related locations could be well valued. Moreover, it must include a limited set of personalised meetings for each participant company according to its profile and business interests/opportunities.

Prior to each cohort, kick-off meeting will take place in Spain between the awardee and the Spanish participants to explain the scope of the program to be developed in Switzerland.

Bidders must inform in detail of the venues of reference for their proposed activities.

In case of any unforeseen event that prevents the execution of the immersion program ICEX will decide whether to carry out the immersion program physically later, or to carry them out virtually on the scheduled dates.

3. DESAFIA SWITZERLAND community and strategic alliances.

In collaboration with ICEX, the awardee will build and maintain a network of strategic alliances, consisting of:

- 3.1. External mentors in Switzerland and Spain that give support to DESAFIA participants for the duration of the programme, with the possibility of extending their involvement further if they wish to.
- 3.2. Alumni: we are seeking ways to strengthen the ties between alumni and expect the awardee to offer proposals in this area.
- 3.3. ICEX can propose and organise up to three community engagement events per year, either physical or online, that the awardee will be invited to take part in.

4. Assessment reports.

Execution and delivery of, at least, the following reports (in English or Spanish):

- 4.1. One technical report per cohort. Each report must include feedback from participants via specific surveys.
- 4.2. One financial report per cohort.

5. Marketing and communication plan.

The awardee will develop marketing and communication activities in Spain and Switzerland to:

- 5.1. Raising awareness of DESAFIA SWITZERLAND among relevant Swiss stakeholders on the potential of participants in DESAFIA SWITZERLAND.
- 5.2. Seeking potential Spanish candidates to DESAFIA SWITZERLAND to attract potential Spanish candidates to DESAFIA SWITZERLAND (for example presentations of the proposed programme, posts in social media...)
- 5.3. Building a professional community and forge strategic alliances.

The awardee is expected to use personal and social networks. It will create and update a specific DESAFIA SWITZERLAND webpage and social media accounts, following technical instructions proposed by ICEX team. (i.e. <https://www.suiza.desafia.gob.es/>)

Bidders are welcome to make detailed proposals on the services described above. Innovative suggestions adapted to the local environment will be positively assessed by ICEX in the evaluation process. For more information on current DESAFIA programs in other locations visit the following websites.

PLACE OF SUPPLY OF SERVICES

Activities will be developed in person in Swiss locations considered by the awardee, unless borders were closed for whatever reason, in which case ICEX will decide the course of action.

As stated above, The Project Manager must travel to Spain at least once a year, so in 2024 there will be at least one trip to Spain as part of the contract.

The awardee and the participating companies will take part in a kick-off meeting in Spain prior to the start of the immersion programme. The aim is to prepare and explain to participating companies the scope of the activities to be developed in Switzerland.

RECOVERY AND RESILIENCE FACILITY (RRF)

This contract promoted by ICEX España Exportación e Inversiones E.P.E., responds to the priorities of Spanish and European economic policies aimed at promoting and internationalizing SMEs and strengthening the ecosystem of fast-growing companies, and contributes to the achievement of CID's objective 213, which is to reach at least 3,000 companies, 2,500 of which must be SMEs participating in internationalization support projects.

The contract is part of the investment project to strengthen the Spanish ecosystem of fast-growing companies (C13.I5). It is a support and assistance program for fast-growing and high-potential companies, whose main challenges and objectives are the following:

-Main challenges: the Spanish entrepreneurial ecosystem is maturing, but it is still difficult to find companies that grow rapidly, and, above all, that reach a large size. Part of the problem lies in the capabilities of entrepreneurs, who must become true entrepreneurs, which requires different management skills and networks of contacts, many of which also transcend our borders (funders, clients, technology partners, etc.).

-**Objectives:** the objective is to build bridges globally and thus facilitate the growth of companies and entrepreneurs to contribute to the maturity of the Spanish entrepreneurial ecosystem, which is addressed through three lines of action:

-Specialized training and master classes to acquire the skills and contacts necessary for the growth of the company.

-Approach to world hubs of entrepreneurship and technology through the creation of a network of programs that facilitate the access of entrepreneurs to reference ecosystems in the world. Activities will be carried out in ecosystems of interest to Spanish companies through the establishment of a local service network and structure that will be made available to Spanish companies at each of the “**DESAFIA**” locations. “**DESAFIA**’S” are foreseen in San Francisco, Tel Aviv, London, The Hague, Singapore, Berlin, New York, etc... This is an estimate of possible locations and may vary as the program evolves.

-Community DESAFIA. A cornerstone of DESAFIA is to create and manage the alumni community so they benefit from business contacts and shared networks.

This contract is framed in the second of the lines of action: approach of Spanish companies to entrepreneurship hubs.

This contract is funded by the European Union Recovery and Resilience Facility, established by Council Regulation (EU) 2020/2094, of December 14, 2020, which establishes a European Union Recovery Instrument for support the recovery after the COVID-19 crisis, and regulated according to Regulation (EU) 2021/241 of the European Parliament and of the Council of February 12, 2021, which establishes the Recovery and Resilience Facility.

Its financing is foreseen entirely from the credits of the service 50 "Recovery and Resilience Facility", from the budget of the Ministry of Economy, Trade and Enterprise through the corresponding capital transfers from the Secretary of State for Commerce to ICEX during the years 2022, 2023 and 2024.

ICEX Board of Directors
By Delegation (Resolution of September 30th, 2021.

Spanish Chief Economic and Trade Counsellor in Bern

This service/activity can be subject to European Union's financing through the Recovery and Resilience Facility (RRF)
